| Optional 3" plumbing kit for 88"  |        |             | 1773         |

- ▶ Free Form Plastics cone bottom stands complete with cone bottom tanks are a safe and efficient way to transport liquid fertilizer, water, etc., to the field. The minimal 10° cone tank slope reduces the overall tank height resulting in increased safety. This also decreases the movement of liquid inside the tank compared to one large tank or a tanker unit.
- ▶ The complete drainage system means less maintenance. You don't have to worry about product being left in the tank. Optional 2" or 3" plumbing packages are available.
- ▶ Trailer stands are designed to be secured directly to the deck. In some cases they are welded directly to the deck. This is ideal if the trailer is solely dedicated for this particular job.
- ▶ Stands are available to accommodate: 1250, 1400, 1500, 2000, 2500 imp. gal. (1500, 1680, 1800, 2400, 3000 U.S. gal.) cone bottom tanks.
- ▶ Tanks are available in white, black, or Gen2 styles.
- ▶ Stand constructed from heavy-duty steel tubing and comes with powder coated paint.

### TRANSPORTABLE CONE BOTTOM TANK CRADLE

- ▶ Fits 1250, 1400, 1500, 2000, 2500 imperial gallon tanks.
- ▶ Suitable for fabricating liquid carts or transportable tank stands.
- ▶ Designed with a 10° slope cone angle.
- ▶ Built-in tie lugs for strapping tank.
- ▶ Reinforced support ring for tank.
- ▶ Cradle assembly is not painted.
- ▶ H.D. for liquid fertilizer carts.

*Freight can be arranged.*
