Algae growth and contamination has always been a problem with water transport tanks. Black tanks have typically been used to overcome this problem, but because of the heat absorption of black the inherent strength of the tank was compromised making it difficult to securely fasten the tank for transport. The design staff at Free Form have developed an innovative new tank, which eliminates algae growth without sacrificing the tanks structural integrity. It appears to be a standard white tank, but the inside is black to block UV rays. These tanks are offered in the Heavy-Duty version only. These tanks come standard with a hinged lid. A sight gauge kit is available to allow the fluid level to be seen.

The **Free Form Plastics GEN 2 Tanks** are rated for liquids with densities up to 20 lbs. per gallon (Liquid fertilizers, etc. compatible) and carry a ten (10) year Pro-Rated warranty against manufacturing defects in workmanship.

- Rated for liquids with densities up to 20 lbs per gal.
- Heavy-duty Bulldog hinged lids are standard on the 3250 size
- All tanks come standard with 4-loading/unloading hooks, siphon tube, hinged vented lid
- 3" HD bulkhead fitting is standard & 2" reducers are available as required
- Extreme ribbing and heavy-duty design to eliminate the need for steel support hoops
- Large ribs act as baffles to reduce the amount of sloshing
- Domed shaped ends for added strength plus this design reduces end-to-end sloshing
- Tanks carry a 10 year Pro-Rated warranty against manufacturing defects

Includes 4 load cells, junction box and digital weigh indicator	1365	\$7,338.24

Individual Components

Individual Components	PART NUMBER	SUGGESTED RETAIL
Stainless steel load cell rated for 10,000 pound capacity	1755	\$1,146.96
Stainless steel 4-cell junction box	1767	\$766.08
Stainless steel 3-channel digital weigh indicator	1754	\$2,330.64

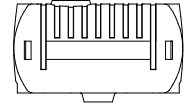

Tank Scale Calibration and Certification

Contact Free Form Plastics for quote.

Features and Benefits:

- Completely welded seams to prevent corrosion.
- Digital weigh indicator can be connected to a printer or remote display.
- Standard 3" outlet fitting complete with anti-vortex to prevent pump cavitation.
- Common frame for all models allows the unit to be upgraded by changing the tank.
- Tanks securely held in place with adjustable nylon straps with ratchets for ease of adjustment.
- Cone bottom tanks have an optimum 10° slope to offer greater stability, lower heights and complete drainage

The Free Form MIXSYS unit is designed for blending dry concentrate products (like Agrotain Plus) with liquid fertilizer. Typically, dumping large bulk bags/containers can be very difficult with a regular tank. With large lid opening, ladder system, 2 pump package options, 4 agitators nozzles for fast efficient blending, 10° cone bottom for complete drainage and low overall height.

Features:

- These units come standard with Ladder pkg, 2 motor/pump combo choices and large lid system
- Units come plumbed ready for use
- Cone bottom tank has an optimum 10° slope to offer best blending, lower heights and complete drainage
- A unique blending system complete with 4 agitator jets, antivortex fitting, complete drain bulkhead fitting
- Heavy-duty stand and tanks make this unit robust and built to last for years of trouble-free operation
- Completely welded seams to prevent corrosion with durable powder coated paint
- 3" plumbing is standard and the unique layout allows you to use this pump to circulate your tank farm as well
- Plumbing setup also allows you to bypass the pump and use the pump from other units to load or unload
- Easily secured to a trailer
- Custom fabricated extra large tank top opening, with lid, to allow for easy fills from bulk bags/containers

Model 1000, 3-Point Hitch Cultivator Price List

Model	Description	No. of Shanks	Part No.	SUGGESTED RETAIL
5.25'	5.25' Frame Assembly c/w shanks (less sweeps)	7	1077	\$1,435.68
6.75'	6.75' Frame Assembly c/w shanks (less sweeps)	9	1078	\$1,738.80
8.25'	8.25' Frame Assembly c/w shanks (less sweeps)	11	1091	\$2,269.44

OPTIONAL

Extension kit to make the 5.25' unit a 6.75' width	1160	\$321.12
Extension kit to make the 5.25' unit a 8.25' width	1161	\$930.96
Gauge Wheel Kit	1079	\$315.36
Sweeps. 11"	1131	\$23.95
Plow Bolts	1166	\$0.86
Universal Quick Hitch Adaptor (required to make unit compatible with quick hitch adaptors)	1077-03	\$93.60

Features and Specifications

The Free Form cultivator has a low "ground to lower link pin" distance which enables the cultivator to be properly lifted out of the ground on smaller horsepower tractors.

With the Free Form cultivator you are able to add extensions to increase the size at a later date.

Manufactured by a leader in the tillage business. Backed by a three year warranty, five year shank breakage warranty and a lifetime shank bending exchange warranty.

Maximum working depth	8 inches
Ground to lower pin distance	16 inches (Allows unit to be properly raised on small HP tractors)
Under-frame clearance	21-1/2 inches
Shank spacing	9 inches
Number of shanks	5.25FT = 7 shanks, 6.75FT = 9 shanks, 8.25FT = 11 shanks
Frame size	2-1/2" x 2-1/2" x 3/16"
Cross members	2" x 3" x 3/16"
Shanks	7/8" x 2" solid mount 47 degree with 1/2" holes on 1-3/4" centres.
Hitch	Category 1 hitch. (Cat.2 pending)
Horsepower	Tractors up to approximately 65 HP
Gauge wheel	Optional
Shipping weight	5.25' = 360 lbs. / 6.75' = 465 lbs. / 8.25' = 565 lbs.

NOTE: Starting in 2026 we will be offering the MT2000 in both the Manual Winch and Hydraulic version and we have discontinued offering the MT3000 hydraulic model.

All hydraulic specific kits will work on either the MT2000 or MT3000 hydraulic models

ROTO-SHEAR

How to order Roto-Shear:

In the majority of applications it is best to use the Roto-Shear's as a set on both sides of the header. To do this you will need to order 2 of Package #1 which is the Common unit that fits all headers. Then you will need to select From Package #2 the Header Specific kit which will have the mounting brackets, braces and hoses required to complete the install for 1 header. (Unless otherwise noted)

Note:

Refer to our Application chart to ensure you have selected the right parts for your specific application. This chart is available on Page 28 or our website.

Roto-Shear Price List

Package #1 - Roto-Shear Unit (this will do 1 side of header)	PART NUMBER		SUGGESTED RETAIL
Roto-Shear Common unit (includes Collector Rod and Divider Board)	27000-00		\$1,130.40
Package #2 - Header Specific Kit (this will do both sides of header)	PART NUMBER		SUGGESTED RETAIL
Universal Header Kit (Includes mounting hardware & hose kit ^A)	27000-01		\$712.08
Honeybee 2013 & Older Header Kit (Includes mounting hardware & hose kit ^A)	27000-03		\$637.92
Honeybee 2014 & Newer Header Kit (Includes mounting hardware & hose kit ^A)	27000-04		\$724.32
MacDon 960/972 Header Kit (Includes mounting hardware & hose kit ^A)	27000-05		\$744.48
MacDon D50 Header Kit (Includes mounting hardware & hose kit ^A)	27000-06		\$653.04
MacDon D60/D65/D75/D1XL & JD 400/1400 Series Header Kit (Includes mounting hardware & hose kit ^A)	27000-07		\$905.76
MacDon D2 & JD 1500 Series Header Kit (Includes mounting hardware & hose kit ^A)	27001-34		\$905.76
M.F. 5200 & AGCO 5000 - 25' Header Kit (Includes mounting hardware & hose kit)	27000-08		\$1,425.60
M.F. 5200 & AGCO 5000 - 30' Header Kit (Includes mounting hardware & hose kit)	27000-09		\$1,481.04
M.F. 5200 & AGCO 5000 - 36' Header Kit (Includes mounting hardware & hose kit)	27000-10		\$1,536.48
M.F. 5300 Header Kit (Includes mounting hardware & hose kit ^{A&B})	27000-11		\$845.28
M.F. 5400 Header Kit (Includes mounting hardware & hose kit ^A)	27001-30		\$726.48
M.F. 5400 - 25' Header Kit (Includes mounting hardware & complete hose kit)	27001-30-25		\$1,425.60
M.F. 5400 - 30' Header Kit (Includes mounting hardware & complete hose kit)	27001-30-30		\$1,481.04
M.F. 5400 - 35' Header Kit (Includes mounting hardware & complete hose kit)	27001-30-35		\$1,537.92
M.F. 5400 - 40' Header Kit (Includes mounting hardware & complete hose kit)	27001-30-40		\$1,593.36
John Deere 600D Draper Header Kit (Includes mounting hardware & hose kit ^A)	27000-12		\$685.44
John Deere D600 Draper Header Kit (Includes mounting hardware & hose kit ^A)	27001-35		\$905.76

NOTES:

^A These kits will require hoses and fittings to connect from the header to the valve for the Roto-Shear, from the valve from the Roto-Shear to the far valve to the far Roto-Shear and from the far valve from the far Roto-Shear back to the header to complete the installation.

^B Requires the addition of an auxiliary hydraulic pump kit to operate the Roto-Shears or contact Free Form.

For additional kits, parts, accessories, etc. refer to pages 26 & 27 (Roto-Shear Parts Price List) or contact Free Form.

ROTO-SHEAR

Note:

Refer to our Application chart to ensure you have selected the right parts for your specific application. This chart is available on Page 28 or our website.

Free Form Plastics

Phone: (306) 275-2155

Last Updated 27-May-2025
 Fax: (306) 275-2101

Description of kits:

Roto-Shear Common kit includes the RotoShear unit itself along with a collector rod and divider board (this would do 1 side of a header only)

Header Specific Kits will include any mounts or braces as well as hoses to install the kit onto a header, it would include both sides*

**With reference to the hose kits, the UHK15 or Universal Hose kit includes the hoses that go from the RotoShears to the back of the header with a ball valve for between the hoses to allow them to be shut off when not in use. This kit will require 3 more hoses to complete the install*

A Division of Bourgeois Industries Ltd.

Full set of 4 starts at \$6,996.00 for the Manual version or \$11,800.00 for the Electric Version

How to order the Crop Divider:

In the majority of applications it is best to use the Crop Divider's as a set on both front and rear wheels. To do this you will need to order 2 of Package #1 which is the Mounting Brackets that fit your sprayer. Then you will need to select from Package #2 the Crop Divider kit (nose cone and arms) that are required to complete your installation. Then you can choose whether you want to have Manual or Electric operation from the remaining pkg's.

Limited Lifetime Warranty

All fender products manufactured by Freeform Plastics are backed by a limited lifetime warranty. We will warranty any defects in workmanship and materials for the life of the fenders. All other mounting hardware and brackets are guaranteed to be free from defects for a period of one (1) year from date of purchase.

Exemptions from this limited warranty are as follows: cleaning with any substance other than soap and water, damage due to road hazards are not covered, any misuse or accidental impact damage is not covered.

In order to receive warranty the authorized dealer must first call Freeform Plastics for a return authorization number. The part(s) must then be return to Freeform Plastics in St. Brieux, SK, freight prepaid, with the return authorization number attached.
